

Student Version to Commercial Version Upgrades

If a customer has purchased a license to any of the following Autodesk student version software applications at least 6 months prior or are graduating in the near future the customer may want to consider upgrading their student license to a commercial version.

The following software applications (version 2008 or greater) are eligible for these upgrades:

- Autodesk® AutoCAD®
- Autodesk® AutoCAD LT®
- Autodesk® AutoCAD Architecture
- Autodesk® AutoCAD Revit Architecture Suite
- AutoCAD Inventor® Professional Suite
- Autodesk® Maya® (Complete or Unlimited)
- Autodesk® 3ds Max® and Autodesk® 3ds Max® Design
- Autodesk® MotionBuilder®
- Autodesk® Softimage® XSI

Graduating students who qualify can upgrade their Autodesk student license to a commercial license at a discounted price*. Please see the eligibility rules below. Commercial versions allow you to use the software for profit, whereas student copies are restricted from such practices.

** Please note: This is a one-time ONLY Upgrade. **Students opting to convert their license are no longer eligible to purchase licenses to any Autodesk software under the terms of the Autodesk Education program.** Please note that at this time **only the above listed student versions products** are eligible under this conversion upgrade program.*

Student Version to Commercial Version Upgrade Eligibility Guidelines

- Students: Full-time students enrolled in a degree or diploma-granting program at an approved education institution or organization [accredited public or private university, college or community college, including primary and secondary schools].
- Faculty: Full-time or part-time instructors who teach at an approved education institution [accredited public or private university, college or community college, including primary and secondary schools].
- Graduating Students: Full-time students enrolled in a degree or diploma-granting program or students who are graduating or have graduated within the last year (6) months.
- Students and faculty are required to provide proof of purchase for the original student version product license to be upgraded to a commercial license. Original student version license purchase must be at least (6) months prior to the commercial upgrade.
- Students or Faculty who have obtained their license to the student version software application for free via the Autodesk Student Engineering and Design Community **are not eligible** for this upgrade program.
